Dear Mr. Richards,

Hello, warm greetings to you from Malaysia.

My name is Juliana and I'm a Masters student currently writing a thesis to fulfill the requirements for an M.A. I'm from University of Malaya, Kuala Lumpur. I'm writing on the development of Sarawak during the colonial period from 1946 to 1959. I'm focussing on the development of political institutions, the socio-economic sector and the social development of the people. I understand that you were an officer serving under the British administration and I would be very grateful to hear about your past experiences and your opinions of the development of Sarawak in the colonial period. The British did plenty to improve the life of the Sarawak people especially in the economic and social context and I will not allow these achievements to go unrecorded.

I hope that you will entertain my letter as your memoirs will help greatly in the writing of my thesis. Upon completion of my thesis, I will send you a copy of my thesis as my sincere gratitude to you. My address is:
